

A+ Certification IT Program- Fact Sheet

Program Goal

The goal of this program is to provide students with competencies in computer hardware and operating systems and prepare them to pass the A+ certification exam that would allow them to work in a variety of capacities in the IT industry.

Program Description

The A+ Certification program is designed to provide students with a broad base of knowledge in computer hardware and operating systems. Some of the key competencies students will learn include; installing, building, upgrading, repairing, configuring, troubleshooting, optimizing, diagnosing, and performing preventive maintenance of computer hardware and operating systems.

Program Duration: 5 weeks

Program Eligibility: Must be at least 18 and possess a high school diploma or GED.

Program Fees: \$2,795, payment plan available upon request; cost includes all lecture and hands-on materials required for the program.

Program Certifications

Those who successfully complete this program are eligible to take the A+ certification test offered by the Computing Technology Industry Association (CompTIA).

Program Flexibility: We have flexible day, evening and weekend program schedules.

Employment opportunities

It is common for graduates of this program to find high paying entry level positions with salaries in the 6 figures range. Graduates from this high demand program may find employment with any organization that uses computers- all major organizations! Graduates of this program can serve as Technical Support Specialists, Field Service Technicians, IT Support Technicians, IT Support Administrators and IT Support Specialists.
